Utah Transit Authority
RE: Incentive Amendment Letter
Electric Vehicle Charging Project: EVUT_568347

Dear Hal,

Congratulations! Your incentive amendment request has been approved.

Next steps:

- 1. You must sign and return the Incentive Amendment Letter to the email listed below.**
- 2. Accept the project meeting requests to update Rocky Mountain Power on the project implementation. Changes affecting the scope, costs, or schedule must be communicated to Rocky Mountain Power.**
- 3. Complete the installation as outlined in the project application per the amendment terms listed in this letter. Please notify Rocky Mountain Power in writing (email) upon the completion date.**

We recommend you set up tracking for project costs so invoices and other project cost documentation can easily be provided when you have finished the project installation and equipment has been placed in-service.

Sincerely,

Sierra Gentry, Customer Solutions Program Manager
Rocky Mountain Power

Rocky Mountain Power
EVIP Program
EV@RockyMountainPower.net

After reviewing your request, Rocky Mountain Power is pleased to provide an amendment to your application EVUT_568347, issued on December 26, 2024

Original Incentive Estimate

The original incentive estimate is summarized below:

- Infrastructure for the installation of seven (7) ABB 150 kW DC Fast Chargers with three (3) ports per charger.
- Installation location: UTA Depot District near 630 West 200 South, Salt Lake City, Utah
- Accessibility: UTA use only
- Original expected completion date: December 31, 2025
- Original incentive amount: Up to \$450,000

This letter formally amends the original incentive offer with a project completion date of June 30, 2027.

All terms originally agreed upon in the original Incentive Letter, dated December 26, 2024 still hold true. Other than the project completion date, the final projects will be completed according to the originally agreed upon incentive letter. This amendment simply approves a project extension.

To receive the incentive payment, equipment must be fully installed, functional, and within the scope outlined in the project application. All project cost documentation must be submitted. If projects are not completed and all cost documentation is not submitted by the deadline, an incentive may not be provided for this project.

For this offer to remain valid and to receive an incentive, it is the responsibility of the participant to:

1. Sign and return this offer within 14 days of the issue date.
2. Submit documentation of additional funding (internal and external).
3. Implement the project as outlined in the project plan by the new completion date.
4. Notify Rocky Mountain Power of any changes that materially affect the implementation schedule, project costs, or project scope.
5. Upon project completion:
 - a. Notify Rocky Mountain Power in writing (email) the project has been completed.
 - b. Provide actual itemized project cost documentation.
 - c. Participate in inspections no later than 30 days from the completion date.

Acknowledgement

I understand

1. My responsibilities listed above.
2. The incentive offer is an estimate.
3. The incentive paid will be based upon completion of the project as outlined in the project application.
4. The maximum incentive from all funding sources (state, federal, utility, etc.) cannot exceed 100% of all eligible project costs.
5. Make-Ready funding will only cover eligible infrastructure costs. Eligible costs will be determined at the discretion of Rocky Mountain Power upon receiving final invoicing.
6. I agree to all Terms and Conditions stated in the project application I submitted.
